**Subject:** Water Gen CRADA

....  
>>>

Hi Patti,

Please share the following information with Yvonne in your weekly report.

The FTTA team and OGC are currently working on a CRADA to assess atmospheric water generation technologies. The CRADA effort was prompted by interest from the Administrator's Office after a discussion with WaterGen, an Israeli company with a patented "water from atmosphere" technology. We are also preparing to advertise for other companies to enter in the technology assessment effort with WaterGen, under separate CRADAs.

Thanks,

Sarah
